Locker Key Policy

It is the student’s responsibility to sign for a locker key upon receiving it and returning the key to the hospital admin officer at the end of the rotation.

Keys must NOT be passed on to students in the next rotation.

Lost keys will cost the student $20 to be replaced.

If keys are not returned to the hospital admin officer at the end of the rotation, the student’s exam results will be withheld until the key has been returned or the fee above paid.

I have read and understand the above policy.

Student Name (printed) ___________________________________________________

Student Signature ________________________________________________________

Date _________________    Unit _______________________________

Policy approved by School Executive Committee on 20 January 2009
