

Double Degrees at Notre Dame

2010

It is a well-known fact that employers value graduates who have a broad education encompassing more than one specific area of study.

A feature of the courses at The University of Notre Dame Australia is the availability of double degree programs. By extending their course, students are given the opportunity of completing a double degree, gaining two qualifications in a much shorter time and at considerably lower cost than separate completion would allow.

By making use of our Winter and/or Summer Terms the double degree can be completed using this "fast-track" option in an extra twelve months.

The completion of double degrees enhances employment prospects and allows graduates to choose a career from a wider field of opportunities.

Double degrees are available in most courses except Nursing, Theology, and Health & Physical Education.

Some possible Double Degree combinations include:

Length (years)
